

KONG FUTURA BODY

ULTRA-LIGHT CHEST ASCENDER

Innovative and sleek chest ascender with reduced size and weight at only 80g! Smooth, ergonomic, and easy to operate, this rope clamp is low-profile and highly efficient. Fitted with anti-overturning cam system. Works in combination with other ascent/descent devices like the **CLUTCH** to offer self-sufficient vertical mobility and hands-free positioning. High quality product, made in Italy.
